

SYMMETRIC GREEN SERIES

DESIGNED TO
BE ACCURATE

Symmetric
Technology:
Very high accuracy
and repeatability

Save time:
One extraction for
all mycotoxins

Avoid adverse effects:
No use of organic solvents

Extra Sensitive:
The lowest LOQ

Fast and easy method:
5-minute protocol

ONE AQUEOUS EXTRACTION FOR ALL MYCOTOXINS

Extraction is performed
by using an Aqueous
Extraction Buffer

DILUTION GROUP A

OCHRATOXIN
TOTAL AFLATOXIN
T-2/HT-2

DILUTION GROUP B

DEOXYNIVALENOL
ZEARALENONE
FUMONISIN

One extracted sample
can lead to two ready-to-
use dilution tubes depend-
ing on the Mycotoxin Group.

After 5-minute incubation the user
can have a quantitative result.
